

**NEO-NORMAL-SEE [TEASER]
@ OUR WONDERFUL CULTURE
Shelton St, Covent Garden, London WC2H 9JE**

MARCH 12 – APRIL 12 2021

Street side teaser features 5 members of the 34 strong 'LOCKDOWN ARMY'. A series of sculptures created from March 2020 to March 2021 combining cast Resin, Jesmonite, Plaster or Concrete with found object, reclaimed steel, recycled machine and workshop parts, in essence, sculptural collage.

The titles, GAUGE, WORLD ORDER, UNNATURAL BALANCE, BELLYWEIGHT and BIRTH OF POSSIBILITY, are discussions about mental health, anxiety, pressure and uncertainty, the current collateral damage to social interaction, social structures, to community and livelihoods.

The repetition of a central symbolic figure is used to imply the 'everyman', each element locked-in to its own 'island' environment being a visual marker to the isolation most of us have been touched by throughout the long months from March 2020 to the present day.

THE LOCKDOWN ARMY is part of the 'Monumental & Intimate' classification of work, scaled to be part of domestic life, to be touched, appreciated and acknowledged on a daily basis.

This teaser and the following exhibition 'NEO-NORMAL-SEE' are part of a series of shows aiming to create discussion and open debate regarding mental health and well being within the arts, practicing artists and society, across faith, colour, gender, age and sexuality. A further installment will be 'POTEM [Part Of The Egg Machinery]' at Chelsea Arts Club: June 14th - July 5th 2021.
